FIRE SPRINKLER NOTES:
Small Hexagonal symbol indicates preferred typical fire sprinkler head locations. Where fire sprinkler leads occur in rooms with beam ceilings, the piping shall be carefully drilled in the center of the beam. Not all fire sprinkler head locations are shown. The final required locations shall be determined by the licensed fire sprinkler system designer, with the locations shown on the reflected ceiling plan as a guide. Fire sprinkler head locations in the attic storage areas are not shown.

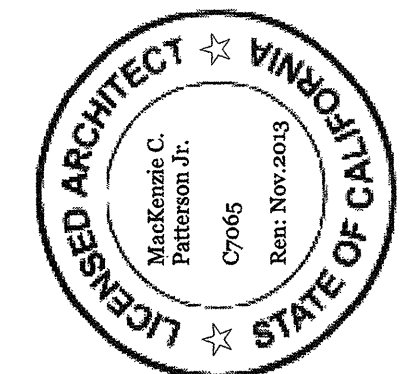

SEE SHEETS FPI 9 PP2 FOR FIRE SPRINKLER PLANS.
